Contract EP W14 020, Task Order

Bunker Hill Superfund Site – Lower Basin Strategic Plan Development

Abstract

This task order will provide facilitation services for Bunker Hill (ID) site team to implement a coordinated and collaborative effort for long term site planning. The goal of these planning efforts is to involve the different layers of partners and stakeholders to assure that their concerns are addressed and their actions are appropriately coordinated. This task order is funded by EPA Region 10 Superfund and will be conducted with the site team in Region 10.

PURPOSE AND BACKGROUND

Project Description

The US Environmental Protection Agency (EPA) has initiated a strategic planning process for work in the Lower Basin of the Bunker Hill Superfund Site (<http://yosemite.epa.gov/r10/cleanup.nsf/sites/bh>) to outline goals, objectives that will guide EPA actions over the next 20-30 years. The Lower Basin is defined as the portion of Operable Unit 3 (OU-3) of the Bunker Hill Mining and Metallurgical Complex (Bunker Hill Superfund Site), which encompasses the Lower Coeur d'Alene (CDA) River and associated lateral lakes, extending from the confluence of the North Fork CDA and South Fork CDA rivers to Coeur d'Alene Lake. Note - Although Coeur d'Alene Lake is within the Bunker Hill Superfund Facility, EPA did not select remedial actions for the Lake. Instead EPA deferred a decision on whether to select remedial actions for the Lake pending the development and effective implementation of a revised lake Management Plan (LMP). EPA faces many significant challenges in the Lower Basin. These include the magnitude of contamination (37 miles of river bed and banks, 30 square miles of wetlands and lakes, and tens of millions of tons of contaminated sediment), the nature of the contamination (lead does not generally become less toxic with time), and the difficult and remote work environment (submerged sediment, seasonal flooding and limited road access). The nature, extent and transport of contaminated sediment throughout the Lower Basin is extremely complex and data-limited.

The cleanup is not only complex, it is also controversial. Our cleanup work directly affects thousands of people's lives—in their neighborhoods, in their recreation areas, on their roads, literally in their own backyards. It is disruptive and has been ongoing already for decades, with more decades of work ahead. Although we have had a long-term presence, the community has a general mistrust of government and of EPA in particular. The community is active and engaged, and EPA and its partners employ many methods to keep people informed about and involved in the cleanup. Most community involvement activities are carried out in partnership with others, such as the state of Idaho, Panhandle Health District, and the Basin Commission. The site's Community Involvement Plan was updated in 2014 (http://www.epa.gov/region10/pdf/sites/bunker_hill/cda_cip_plan_2014.pdf).

The focus on data collection and analysis and model development over the past 5 years has significantly enhanced the conceptual site model and positioned EPA to make more informed decisions than it was

able to do at the time of the 2002 Record of Decision. The next 5 years will reflect a transition beginning to put this knowledge into action. Critical data collection will continue, but the focus will shift to pilot testing and focused remedy assessments and implementation. Modeling tools will allow the evaluation of options with a much higher degree of rigor, especially as the sediment transport model comes on line. Coordination with other agencies and stakeholders will grow as project details become more defined. A more comprehensive strategic plan for Lower Basin remediation is expected to emerge from these efforts.

EPA anticipates this strategic planning process will 1) refine goals and objectives for cleanup work in the Lower Basin, 2) outline specific work EPA will undertake over the next 3-5 years, 3) define the process by which EPA will make decisions, 4) document how EPA will engage and incorporate input from stakeholders and the public and 5) develop a framework for a decision matrix or tool to help prioritize cleanup actions that will be taken.

This effort will be led by EPA's Project Team, which will also include EPA's technical contractors and representatives from the Coeur d'Alene Trust. EPA is also inviting key stakeholders to be members of a Technical Workgroup to provide a forum to gather and share technical information with other agencies who have expertise, authorities and regulations, and are implementing work in the Lower Basin.

EPA is exploring additional resources to incorporate the participation from the broader community and other interested parties. However, EPA is undertaking this strategic planning process to ensure we appropriately engage both key stakeholders and the broader community in the cleanup process.

Project Organizational Structure

Three layers of organizational structure correspond to three different sized groups and levels of participation.

EPA Project Team

The Lower Basin Strategic Planning project is managed by EPA Remedial Project Managers with input from EPA Community Involvement Coordinators, EPA managers, EPA technical contractors and representatives from the Coeur d'Alene Trust. Its primary roles include: project management, contract and financial management, and dispute resolution. Some staff representatives on the Project Team will also participate in the Technical Workgroup.

Technical Workgroup

The Technical Workgroup is expected to include representatives from Coeur d'Alene Tribe, Idaho Department of Environmental Quality, Idaho Fish and Game, Panhandle Health District, US Fish and Wildlife Service, Bureau of Land Management, US Forest Service and the Restoration Partnership. All members of the committee will be identified by EPA prior to the first Workgroup meeting. The purpose of the Workgroup is to provide a forum to gather and share technical information with other agencies who have expertise, authorities and regulations, and are implementing work in the Lower Basin. Specifically members of the Technical Workgroup will be asked to become familiar with the Enhanced Conceptual Site Model and any released technical discipline updates, bring specific expertise to the table, as appropriate, discuss

remedial alternatives and how to measure efficacy of these alternatives , share priorities of Restoration Partnership (RP) and discuss nexus between EPA work's and that of the RP, review strategic plan Drafts, discuss potential pilot projects, share information about projects and developments as part of the Natural Resource Trustees CDA Basin Restoration Plan, and participate in forums for discussion of benefits and tradeoffs for various priority and remedy selection approaches for the work in the Lower Basin.

Interested Parties

The overall strategic planning process will include developing a strategy for outreach and involvement of interested parties. The strategy may be revised by EPA throughout the project. In addition to the EPA Project Team and the Technical Workgroup, the larger group of potentially interested parties includes the following:

- Elected officials and local city and county leaders
- Other Local entities (Chamber of Commerce) and interest groups
- Outdoor and recreational groups
- Local industry representative
- North Idaho College and local University of Idaho
- General public
- Environmental Advocacy Groups (KEA, Idaho Conservation League, etc)

STATEMENT OF WORK

This Statement of Work is for approximately the first year of this project (through September 30, 2016). This project period may be extended, subject to funding or other factors.

The Contractor will provide a lead facilitator and support staff to meet the following objectives:

Task 0: Preliminary Work

1. The Contractor shall select a senior dispute resolution professional(s) to act as convener(s) and facilitator(s) for this project in consultation with the Project Officer (PO) and Task Order Contracting Officer Representative (TOCOR). The dispute resolution professional shall have the following experience, skills, knowledge or educational background:

- Experience with facilitation of long term strategic planning, prioritization and goal setting processes
- Knowledge of Superfund cleanup processes
- Experience with large, complex, multi-year Superfund cleanups
- Experience facilitating inter Agency (at Federal, State and Tribal) groups focused on cleanup or remediation or restoration.
- Knowledge of EPA Community Involvement program and procedures.
- Experience analyzing opportunities for comprehensive community and stakeholder involvement at Superfund sites
- Experience working with Tribes in toxics cleanup.
- Location in the Pacific Northwest.
- Past experience in Idaho.

The contractor shall provide a list, short qualification statement, and resume of up to 5 service providers who meet these qualifications to the Task Order Project Officer (TOPO). EPA will review the potential service providers and will provide feedback to the contractor on the appropriateness and acceptability of the service providers prior to the final selection of the service provider.

2. The contractor shall meet with the EPA PO and TOCOR and members of the team to discuss substantive and procedural issues and define potentially involved interests and parties.
3. The contractor shall submit a work plan in accordance with the requirements of this contract. The workplan shall include:
 - Procedures for substitution of labor categories in the event of temporary or permanent personnel changes.
 - Outline of quality assurance/quality control procedures for deliverables.
 - Information on Conflict of Interest checks for the proposed provider.
 - Budget information by option period in projects that will phased over a longer period of performance.
4. The prime contractor shall be responsible for oversight of deliverables on this Task Order and shall be responsible for transmission of monthly reports and invoices as required by the contract. No monthly report will be required in months with no substantive work.

Facilitation Tasks:

The contractor shall provide facilitation services for three concurrent layers of project management as described below in Tasks 1, 2 and 3. The general scope of facilitation tasks is described below.

1. The contractor shall meet with the EPA TOCOR, EPA technical lead and stakeholder representatives to discuss the design and schedule for the collaborative process. The contractor shall read background material provided by the TOCOR in preparation for facilitation of the meetings. At this meeting the government representatives shall provide more detailed information with regard to the goals and outcomes expected of the process, list of potential parties to be included in the process, a list of issues to be addressed through the process and history of involvement of the parties in previous or continuing dialogues.
2. The contractor shall provide a draft agenda to the TOCOR for each meeting. The contractor may consult EPA and all relevant parties in preparing a draft agenda. Upon receipt and incorporation of PO and TOCOR comment, the contractor shall distribute the final agenda to the TOCOR, committee members and other participants.
3. The contractor shall communicate in person, by phone or in writing with participants and between meetings to ensure that issues and concerns have been communicated accurately and

that participants are adequately prepared for the next meeting. The contractor shall keep confidential that information which parties specify as confidential.

4. The contractor shall facilitate all plenary sessions, subcommittees, workgroups, conference calls or web communications meetings. As facilitator the contractor shall assist participants in articulating their interests, identifying areas of agreement, and developing consensus solutions to the problems that divide them. As facilitator, s/he shall keep the parties talking, listening, and moving--as much as possible-- towards the goal of the process. **THE FACILITATOR SHALL NOT TAKE A POSITION ON THE MERITS NOR RECOMMEND TO THE PARTIES WHAT THE SUBSTANTIVE RESOLUTION OF AN ISSUE SHOULD BE.**
5. The contractor shall provide draft meeting summaries to the EPA TOCOR, and the participants. Upon receipt and incorporation of comment, the facilitator shall distribute final meeting summaries to the EPA TOCOR, other participants per the process ground rules.
6. The contractor shall provide meeting equipment, supplies and support for all meetings of the plenary group, subcommittees, and workgroups for which a federal meeting space is not available.

Task 1: Project Team Facilitation

Objective: Provide project management support and strategic planning services to the EPA Project Team

Scope: Support up to eight in-person project team meetings (2- 4 hour meetings in Seattle and 6-2 hour meetings in Seattle).

Coordinate with the Project Team to:

1. Identify key project needs and issues,
2. Assist in the design the Technical Workgroup process,
3. Develop meeting agendas,
4. Clarify expectations and outcomes,
5. Develop discussion topics,
6. Facilitate discussions, and
7. Confirm follow-up assignments.
8. Work with EPA Project Team to better define roles and responsibilities of Team members
9. Help the team work through a process to generate a framework for decision making and prioritizing remedial action project work. Discussions may include the following:
 - a. current ROD goals and objectives and need for refinement,
 - b. syncing realistic EPA objectives with stakeholder objectives,
 - c. qualifying and quantifying (metrics) success in meeting objectives,
 - d. determining the level of input and information exchange needed from the Technical workgroup,
 - e. defining meaningful State and Tribe roles that are most effective in the process,

- f. framing up EPA's over-arching remedial approaches for meeting our objectives within EPA sideboards (policy, resources, regulatory, schedule, etc)
- g. defining the various alternatives under these remedial approaches, and the associated tools (model support, updated CSM, pilot studies) needed to evaluate the efficacy of these alternatives.
- h. developing a process (e.g., decision matrix or tool) for prioritizing these alternatives into short-term (3-5 year) and long-term (20-30 year) project work for the Lower Basin. developing a process for engaging the community and other interested parties to optimize input and engagement
- i. ensuring that decisions associated with evaluation and implementation of remedial actions are properly documented.

Deliverables:

- 1. Meeting agendas,
- 2. Handout materials,
- 3. Meeting summaries, and
- 4. Draft and final project announcement and Technical Workgroup invitation materials.

Task 2: Technical Workgroup Facilitation & Project Management Support

Objective: Facilitate the involvement of the Technical Workgroup in providing input and support on technical and remedy implementation issues.

Scope: Facilitate a Technical Workgroup process to provide support to EPA on the key project needs and issues identified in Task 1.

Assumption: Six half-day Technical Workgroup in-person meetings to occur over a 1 year period in Coeur d'Alene or Spokane.

Meeting support tasks include:

- 1. Coordinate with RPM to plan the meetings
- 2. Develop the agendas
- 3. Clarify expectations and outcomes,
- 4. Develop discussion topics,
- 5. Facilitate discussions,
- 6. Assist with identifying participant needs
- 7. Work with presenters, and
- 8. Confirm follow-up assignments.

Deliverables:

1. Meeting logistics (scheduling, location arrangements)
2. Technical Workgroup meeting agendas,
3. Technical Workgroup handout materials,
4. Facilitation services
5. Technical Workgroup meeting notes including the technical approach recommendations (during meeting and following meeting).

III. WORK APPROACH

[The following are standard provisions of our Task Orders and Contract and should not be edited without consultation with the Project Officer in CPRC.]

A. ADR and Public Participation Best Practices:

The Contractor shall approach this task in accordance with terms of the basic contract and according to the established norms and ethical standards of ADR professionals.

Based on EPA's evaluation of a large number of ADR cases, the Agency has determined that the following practices are significantly related to positive substantive, relational, and procedural outcomes from ADR cases. The contractor shall ensure that this direction is provided to ADR professionals providing services under this task order:

- Prior to the mediation or facilitation and throughout the process, the ADR professional shall inquire about whether individual participants have the time, financial, and logistical resources necessary to participate effectively in the process and -- where resources are inadequate -- assist them in identifying appropriate resources or in making necessary adjustments to the process to accommodate resource constraints.
- The ADR professional shall assist the participants in identifying the issues that are important to resolving any controversy and solutions that will address the needs shared by the participants.
- The ADR professional shall conduct the process to promote active engagement from all participants.
- The ADR professional shall explore with the participants appropriate ways to incorporate high quality and relevant information resources necessary to resolve the issues.
- To support productive dialogue and effective implementation of any agreements reached by the participants, the ADR professional shall ensure that participants have appropriate authority to make commitments on behalf of their organizations.

B. Ethical Codes of Conduct:

The Contractor shall ensure that ADR professionals serving as neutral third parties under this contract receive information about and perform in accordance with ethical codes applicable to the practice of dispute resolution professionals. Relevant examples of ethical codes include those adopted by:

- the American Arbitration Association, American Bar Association, Association for Conflict Resolution:
<http://www.acrnet.org/uploadedFiles/Practitioner/ModelStandardsOfConductforMediatorsfin>

al05(1)(1).pdf)

- the International Association of Facilitators:
(<http://www.iafworld.org/aboutiaf/CodeofEthics.aspx>)
- the International Association for Public Participation:
(<http://iap2.affiniscape.com/displaycommon.cfm?an=1&subarticlenbr=8>)

C. Confidentiality

All parties to this task order acknowledge that the confidentiality provisions of the Administrative Dispute Resolution Act, 5 U.S.C. Section 574 shall govern the contractor's alternative dispute resolution activities (if any) under this task order.

D. Contractor Representation

In gathering information or performing tasks with parties outside the EPA, the contractor will identify him/herself as a contractor to EPA, not an EPA employee.

The Contractor shall provide input or make recommendations based on the information gathered, however, decisions on all substantive issues will be made by EPA. THE CONTRACTOR SHALL NOT INTERPRET EPA POLICY ON BEHALF OF EPA NOR MAKE DECISIONS ON ITEMS OF POLICY, REGULATION OR STATUTE. THE CONTRACTOR SHALL NOT TAKE A STAND ON THE MERITS OF SUBSTANTIVE ITEMS UNDER DISCUSSION.

E. Status Notifications:

THE CONTRACTOR SHALL NOTIFY THE EPA PROJECT OFFICER AND PROGRAM OFFICE CONTACT WHEN 75% OF THE FUNDS PROVIDED HAVE BEEN EXPENDED OR WHEN FUNDING FOR LESS THAN 6 WEEKS WORK REMAINS. The Contractor shall also notify the TOPO when 75% of the funds have been used on any single case assignment. Notifications shall be in writing and cc to the Project Officer.

F. Task Order Procedures, Constraints and Disclaimers

If out of town travel is required to accomplish the tasks under this task order, the contractor shall obtain advance approval for that trip and its costs in writing from the TOCOR, ATOCOR and/or the PO. To the extent possible, the contractor's per diem costs shall be within allowable limits set by GSA.

This task order is not funded by multiple appropriations. This task order does not provide for training of contractor personnel, provision of Government Furnished Property or Accountable Personal Property, leased items or property or IT products or services. The SOW does not include any tasks that are inherently governmental in nature or provide personal services. The SOW does not anticipate transferring or developing Confidential Business Information or Personally Identifiable Information to the contractor. This project will not involve collection of environmental data and so is not subject to needing an EPA Quality Assurance Plan. Printing shall be in accordance with limitations of the contract. This project does not involve the service provider conducting surveys, data collection or questionnaires. Development of communications products as a result of activities on this task order will be in

compliance with EPA's Policy and Implementation Guide for Communications Product Development and Approval found at [HTTP://www.epa.gov/productreview/guide/index.html](http://www.epa.gov/productreview/guide/index.html).

The Contractor is directed to conduct Conflict of Interest checks and provide this information as a part of the Work Plan for TOCOR review and CO approval.

IV. REPORTS AND DELIVERABLES

The contractor shall send EPA all reports in accordance with the terms of the basic contract and the schedule set out below. The contractor shall provide a work plan within the schedule provided in the basic contract and set out below.

Copies of all reports, meeting notices, agenda, summaries and any other written deliverables shall be sent to both the PO and the TOCOR listed below. If oral briefings are scheduled for EPA staff, the PO shall be notified in time to attend.

All reports shall be provided first in draft form. Upon receipt of comment from the EPA PO and TOCOR, the contractor shall revise the report and distribute final copies as stated in the Scope of Work.

Submission dates for Transmittals may be changed via written Technical Direction from the TOCOR. Submission dates for Deliverables may only be changed via modification issued by the Contracting Officer.

Schedule:

Item:	Due No Later Than:	Type:
Work Plan	10 days from T.O. issuance	Deliverable
Draft Meeting Agenda	3 weeks before meeting	Transmittal
Final Meeting Agenda	1 week before meeting	Transmittal
Meeting Handouts	Per TOCOR direction	Transmittal

	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
X	D. OTHER (Specify type of modification and authority) FAR 52.232-22

E. IMPORTANT: Contractor ☐ is not. ☒ is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

DUNS Number: 097779698

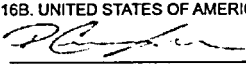

The purpose of this modification is to approve the Work Plan and Cost Estimate that was submitted by the Contractor on 1-20 and accepted by the Task Order COTR on 1-22. This modification also accepts the plans and cost for Phase I of this project. Phase II cost will be requested and evaluated at the end of Phase I activities.

This modification increases the total estimated cost of this Task Order by \$14,899.52 which increases the ceiling from \$3,000.00 and sets it at \$17,899.52.

This modification also provides incremental funds in the amount of \$14,899.52 which brings the total obligated amount from \$3,000.00 to \$17,899.52.

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended ☐ is not extended
Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing Items 8 and 15, and returning _____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGEMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

14 DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible)

DUNS Number: 097779698

The purpose of this modification is to accept the cost estimate for Phase 2 and 3. Both Phases are apart of the original Statement of Work but the pricing couldn't be done until after Phase 1 had been completed.

This modification increases the ceiling of this Task Order by \$51,514.11 which brings the total estimated cost from \$17,899.52 to \$69,413.63.

This modification also provides incremental funds in the amount of \$32,100.48 which brings the total obligated amount from \$ 17,899.52 to \$50,000.00.

TOCOR: Tracey Chellis Max Expire Date: 03/31/2017

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

DUNS Number: 097779698

The purpose of this modification is to approve the revised Cost Estimate and Work Plan that was submitted by the contractor on 3-28 and accepted by the Task Order COTR. These changes were made in accordance to the Government's revised Statement of Work.

This modification increases the ceiling of this Order by \$59,971.47 which brings the total estimated cost from \$69,413.63 to \$129,385.10.

This modification provides incremental funding in the amount of \$59,971.47 which brings the total obligated amount from \$69,413.63 to \$129,385.10.
